## Here and There

### NUREMBERG — and British Justice

The long trial of the 21 Nazi War Criminals closed with each of them having twenty minutes to clear himself. The verdict of the International Court will not be given for some weeks. Millions who are asking themselves how anything short of death can be the verdict, have a vague feeling that even death, one death for each conspirator, can never satisfy justice; cannot atone for the misery, cruelty and butchery of this band of inns.

The importance of this trial goes beyond these 21 men. For the first time in modern history, conspirators against mankind have been brought to trial. After the last war, the men who sent Germany to fight the world fled to Holland or stayed in Germany. Von Hindenburg, the top General, became the President of Germany. Now the defeated Nazis face the bar of justice as criminals against mankind. If the trial serves as a stern warning that men who start wars are enemies against man, and will be shot, something has been accomplished. War mongers must know, that when they cease to value human life, it includes their own. This adds a new and unpleasant risk for the instigators to the beastly business. If this trial establishes the precedent that crimes cannot be committed against mankind and that there is legal machinery to establish guilt and punish offenders, it will have great historical meaning. The trials have been carried out in the procedure of the British courts. While the American, Russian and (continued on the back page)

Portrait by TRUFOTO  
Mr. and Mrs. John Smith  
The wedding took place Wednesday, September 18th, in the Alberta Temple, with President Wood officiating. Norma, only daughter of Mr. and Mrs. Carlyle Litchfield and John son of Mr. and Mrs. W. C. Smith of Hillspring. The young couple will reside in Oids where the groom will attend the Agricultural College.

## Two Injured In Accident

Jack Nilsson and Byron Vuuee, formerly of Raymond and now farming in the Rosemary district, were taken to the Brooks hospital following an accident on a combine Wednesday. Complete details are lacking at this time.

Both the injured were working at rear of the combine when a P.O.W. working with them started the machine to move it forward. Accidentally the machine was thrown into reverse, passing over both. They suffered lacerations and broken bones. Jack is still in the hospital with his leg in a cast and the extent of injuries will not be known for several days. Byron was allowed to return home after being put in a cast. Condition of both was reported good Friday morning.

## Local Happenings

Reported by Elsie Mitchell

Mrs. Dave Watson of Cardston was a visitor at the home of her daughter Mrs. Warren Jones this week.

The Misses Hazel Fawns and Lois Jensen left Thursday for Salt Lake where they will attend business college there. They were accompanied by Miss Shirley Tollestrup of Lethbridge who will also attend school in Salt Lake.

Miss Doreen Snow left Monday for Edmonton where she will attend University.

Mrs. Hugh Layne of Kent, England arrived recently and is the guest of her husbands parents Mr. and Mrs. C.A. Lyne. Hugh has also landed in Canada and is expected home this weekend.

Mrs. A.L. McMullin is visiting her daughter Mrs. Jack Grey in Winnipeg.

Mrs. L.D. Roberts has had as her guest this week Miss Hulda Parker of Draper, Utah. Miss Parker is a missionary from the Eastern Canadian Mission.

Mrs. Irene S. Redd of Raymond, announces the engagement of her fourth daughter, Gahlvore, to Marvin H. Torrie, only son of Mr. and Mrs. Albert Torrie, of Grass Lake. The wedding will take place on October 16th, at the Alberta Temple.

The wedding took place in Calgary Sept. 19th, at Central United Church of Claire Allen, only daughter of Mr. and Mrs. F. H. Ball of Raymond, to David Allen Cook of Melbourne, Australia. Rev. C.A. Lawson officiating. Mr. and Mrs. Cook will reside in Melbourne. Mr. Cook recently returned from service overseas and left Monday for Australia. Mrs. Cook will follow shortly, meanwhile she is continuing her work in Calgary as a nursing sister with the D.V.A.

The members of the Ladies Music Club were entertained Monday evening by their husbands. The party was in the form of a corn and weener roast and the men readily did them selves proud, so the ladies say, and some of the fellows are still suffering from dishpan hands.

Mrs. F.H. Ball and son Gordon, were in Calgary last week for the wedding of Mrs. Ball's daughter.

Miss Lois Stone has returned from the hospital where she was a patient for several days.

Mr. and Mrs. Hubert Strong of Canrose, Alberta, are visiting here, guests of Miss Dorothy Strong. After their holidays they will return to Alx Albertu to make their home.

Friends sponsored a shower Monday evening at the First Ward Recreation Hall for Mrs. Wallace Lee an overseas bride who recently arrived in Raymond. About seventy five were present. After a dainty lunch served in the Relief Society room the guests viewed the lovely gifts which were displayed on long tables and afterwards enjoyed the following program: Piano solo—Adrian Layne; vocal solos by Yvonne Smith, Jeanine Jensen and Geraldine Court; piano duet by Afton and Colleen Christensen; and a humorous reading by Geneva Erickson.

The bride, formerly Miss Mary Porterfield of Barrhead, Renfrewshire, Scotland, was very appreciative of the many lovely gifts she received. Mr. and Mrs. Lee will make their home in Raymond.

Work on Raymond's new sewer got under way Monday afternoon, when Henry Berger and Sons, Contractors from Winnipeg commenced putting in the main lines. The site of the digging is south of the Sugar Factory by the lake (Green's) where the disposal plant will be situated.

Only a small crew are on the job, lack of material and the approach of freeze-up being the main factors in holding up progress.

A reception was given by Mr. and Mrs. T.K. Roberts for their son John and his wife who recently arrived from Wales. Nearly two hundred guests attended. The hall was beautifully decorated for the occasion.

Mr. Dick Kinsey acted as Master of Ceremonies and a lovely program was enjoyed. Paul Redd gave a speech of welcome to the bride to which John replied. Short talks were given by Mr. and Mrs. Roberts. Long tables displayed the beautiful presents which included silverware, a radio and many other lovely gifts.

Among those from out of town, were Mr. and Mrs. Douglas Kennedy, Mr. and Mrs. H.B. Kennedy, Mr. and Mrs. Fleming, Mrs. Dave Clemis and Mr. and Mrs. Dick Clemis, all of Lethbridge and Mr. and Mrs. Geo Webb of Wilton.

Mrs. Eulala Nalder and Mrs. Rae Selman were joint hostesses Tuesday, when they entertained at the home of the former. A lovely social afternoon was spent and the hostesses served a lovely lunch.

Mrs. Kenneth Hudson of Lethbridge returned home Tuesday, after visiting her parents, Mr. and Mrs. Hethman.

Lloyd Rethman is leaving Friday for Calgary where he will attend Tech.

Lloyd McBride was home from Calgary over the weekend, visiting his parents.

Mrs. Emma Dahl accompanied her daughter Myra and Bernice Hentager to Provo, Utah on Sunday, where both girls will attend school.

Miss Velda Nalder of Picture Butte is visiting her grandmother, Mrs. R.A. Nalder.

Mr. and Mrs. Moor and Mr. Merrill Adams of Regina spent the weekend here, visiting Mrs. Kieth Finch and Mr. and Mrs. L.M. Adams.

Mrs. Harriet Palmer of Magrath has been visiting Mrs. R.J. Webster.

Mr. and Mrs. Howard Melchin and Mr. and Mrs. Archie Terry left Sunday on a business trip to Salt Lake.

Mrs. LeVero Terry is recovering from a major operation at the local hospital.

Miss Margaret Wing left Friday for Utah where she will attend school. She accompanied her aunt, Mrs. Maralda McKay and son and daughter who have been visiting here.

Mrs. Eva Terry left Sunday for a visit with relatives in Utah.

Mrs. T.O. King has returned from visiting her daughters in Vancouver.

Mr. and Mrs. O.H. Snow accompanied by Mrs. Irene Todd spent a few days in Banff and Calgary last week.

Mr. and Mrs. David Stewart have returned to their home in Los Angeles after visiting Mrs. Stewart's parents Mr. and Mrs. I.B. Roberts.

T. George Wood has an apple tree that is all mixed up in its seasons. Mr. Wood was in the Recorder office Tuesday morning with a branch bearing several lovely blossoms. They stand a pretty fair chance of being nipped in the bud.

Bront Garner Heggie, born August 29th, 1916, announces his intention of living at the home of Mr. and Mrs. Bruce Heggie, Raymond.

## Snaps and Scraps

**SPEED**—If the town fathers have it to worry over to day, they have no more trouble than did the town fathers in the good old days. In witness thereof we present the following —

### BY-LAW 31

**By-law Referring to the securing of horses and regulating the speed of horses and vehicles within the town of Raymond.**

**WHEREAS** the Municipal Council of the town of Raymond deem it expedient to pass the following by-law: **NOW THEREFORE** the Municipal Council of the said town enacts as follows that is to say:

1. No horse, mule or other animal and no bicycle, tricycle, automobile motor car, motor cycle, wagon, carriage or vehicle of any kind or nature whatsoever shall be ridden or driven upon any street, bridge or public place, within the municipality at a greater speed than six miles an hour.

2. No person being the driver or rider or having charge of any horse or horses or other animal or animals whether hitched or not to any carriage or vehicle shall leave any such horse or other animal standing in any street or public place within the municipality unless such driver, rider or person shall remain near the head of such horse or animal having hold of the reins or lines or unless such horse or animal shall be firmly secured to some post or other substantial place or fastening prepared for that purpose or shall have attached to the bit of such horse or animal by a substantial rope, strap or chain a metal weight or drag weighing not less than ten pounds.

Any person violating any of the provisions of this by-law shall upon summary conviction be liable to a fine of not less than Five Dollars nor more than Ten Dollars with Costs and in default of payment to imprisonment in the lock-up house of the municipality for a period not to exceed ten days. Done and passed in Council this day of April 14th, 1907.

George W. Green—Mayor.

George H. Budd—Sec-Treas.

Moved by J.S. Kirkham, Seconded by J.H. Johnson.

(Eds Note. We have reason to believe this by law has been amended. Okay kids, the lid's off.)

When the American people tell you of their flag they call it Old Glory; they will also tell you that the thirteen red and white stripes are for the first thirteen states that joined the Union and that the forty eight white stars are one for each state as it now. The colors of the flag were defined by the Continental Congress "white signifies purity and innocence; red—hardiness and valor; blue—vigilance, perseverance and justice." George Washington said "We will take the stars from heaven the red from our mother country, separating it by a white stripe thus showing that we have separated from her, and the white stripe shall go down to posterity representing Liberty.

### Canadian Author

Nellie Letitia Mooney McClung was born in Chatsworth, Grey County,

Ontario, in 1873. Her family came west in 1880 travelling by train, boat and extrain. Mrs. McClung taught school when she was fifteen, later going to the Normal School at Winnipeg, Manitoba. In 1896 she married R.W. McClung Ph.M.B.

Mrs. McClung identified herself

in her early life with the fight for woman's rights, atask that she has carried all through her life.

In 1916 she was chosen as a delegate to the Great War Conference Mrs. McClung was representative to the Alberta Legislature from 1921-25 for Edmonton. She has included Newspaper work in her life as well as being a mother to five children. Her stories are full of local color of simple home life.

The McCungs nowlive at "Lantern Lane", Victoria, B.C. and her portrait hangs in the hall of fame at Edmonton along with four other ladies, there being just five in Alberta.

### New Books

"Man—Eaters of Kumaon"—Jim Corbett "Barry" The Story of a Wolf Dog—Thomas C. Hinkle; "Tomabawk Fighting horse of the Old West"—Thomas C. Hinkle; "Stormy Victory"—the story of Tehalkosky—Claire Leel'ur dy; "Born to Command" the story of General Eisenhower—Helen Mcleay; "A Solo of Tom-Toms" The story of a rocky mountain boyhood and the quest of a father—Gene Fowler. "The Boys' Life of Kit Carson"—Flora Ularren Seymour.

## Cantata Draws Large Crowd

Sunday evening in the Stake House over seven hundred people gathered to celebrate the anniversary of the visit of the Angel Moroni to Joseph Smith. The meeting was under the direction of Bishop L.L. Palmer. Special musical numbers were rendered by the choir after which President T. George Wood gave a brief address on the theme of the meeting. The highlight of the service was the presentation of the sacred cantata "Moroni the Solitary Scribe", the words of which were written by Frank Steele of Lethbridge and the music by C. F. Tollestrup. Thirty voices were in the choir and was under the direction of C.F. Tollestrup. Soloists were Joe McLean, Delbert Oler and Mrs. Emma Burr.

The stage was made to represent a cave in ancient times, with the solitary scribe, the last of his people basily engaged settling down the history of his people. The scenery was painted by E.E. Rethman and the stage was under the direction of Mrs. A. Hudson, Marie Strong and Miss Anderson.

The cantata was presented here several years ago and the large audience gave evidence of their appreciation of this work and its representation at this time.

## Welling News

by Mrs. E. K. Bullock

Mrs. Minnie Lee of Cardston was the week end guest of Mrs. Carrie Palmer.

Doris and Ruth Weinheimer, Dorothy Wilde and Bob Wilde have gone to Edmonton to attend University. Murray Wilde is leaving on Wednesday.

Mutual started here on Tuesday night with a fair crowd present. The time was spent in discussing the courses to be taken this year. The

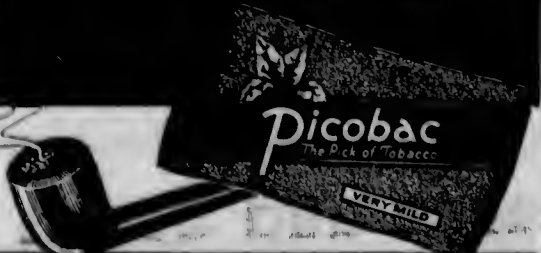

officers are D.E. Wilde, Roy Chipman Dean Wilde, Kate Wilde, Olla Glibb and Dorothy Smith.

The Special Interest Group of the Welling Mutual are holding a party and corn roast on Friday night in Alvin Bullocks new barn. All 25 years and older are invited.

Beet harvest has started here but a shortage of labor is felt. There are too few P.O.W.'s available.

# Picobac

THE PICK OF PIPE TOBACCOS

## Food For Peace

**HISTORY HAS SHOWN** that war and rebellion have frequently been the direct result of lack of food. People who are hungry are desperate and are willing to attempt any means of improving their conditions, making them a ready prey for unscrupulous leaders and distorted ideologies. It is now recognized that one way to keep peace among the nations is to ensure equitable distribution of food in every part of the world, at prices which will make it available to all levels of the population. With this end in view, the United Nations' Food and Agriculture Organization, which has proved so far to be one of the most active of the United Nations' organizations has proposed an international granary to be administered by a permanent world food board, combining the work now carried on by U.N.R.R.A. and the international emergency food council.

### Stable Prices Are Proposed

It is proposed that world food prices could be stabilized by such a board if minimum and maximum prices were set on foods on a basis of the anticipated supply and demand. In the case of any commodity being in excessive supply, and the price falling below the minimum, the board could buy it up, until the price was stabilized. In reverse, it could place on the market additional supplies of foods whose prices had risen above the maximum. It is also proposed that the board should organize a six to twelve months' food reserve, to be used in case of crop failures should any one commodity be produced in such quantity as to threaten the world balance, the board would have the power to set export quotas between the producing nations. Funds would be necessary for the operation of a board of this nature and it was suggested that these could be raised, in part, at least by contributions from the nations benefitting from its services.

### Might Produce Wide Benefits

In suggesting the plan for a permanent world food board, the Food and Agriculture Organization emphasized that development of trade and industry would be necessary for its success, since they provide the money to purchase food. The outcome of these proposals should be watched with interest, for they may have a very important effect on the course of events in the future. Any matter connected with agriculture is also of vital interest in this country and a plan which would ensure stability of prices for farm products would affect a large part of our population. Farmers have suffered much in the past due to world market conditions which are far beyond their control, and a well organized world food board, such as the Food and Agriculture Organization has proposed, might bring considerable benefit both to producers and consumers in many parts of the world.

## SLUGGISH?

Try this effective gentle relief!

When you feel sluggish and logy, simply take 2 to 4 tablespoonfuls of Phillips' Milk of Magnesia with water at bedtime. You'll be overjoyed with the way this proved laxative-antacid helps you wake up feeling bright and refreshed. Phillips' works effectively, yet it is wonderfully gentle. Phillips' Milk of Magnesia is known to science as one of the fastest neutralizers of excess stomach acidity known. Get genuine Phillips' at your druggist today. Remember...

It costs as little as 25¢ TO BE SURE OF THE BEST

### Mapping The North

R.C.A.E. To Take Photographs Of Saskatchewan Areas

EDMONTON.—Some 40,000 square miles of territory north of Edmonton will be photographed by the Royal Canadian Air Force, headquarters, North West Air Command said. The area extends as far north as Lesser Slave Lake and north east to Lake Dore in Saskatchewan.

The purpose of the work is to provide photographs from which maps of little known and uncharted parts of Canada can be made.

### WOMEN who SUFFER MONTHLY PAIN

should try this very effective medicine to relieve pain and tired, nervous, cranky feelings, of such days—when due to female functional monthly disturbances. Worth trying!

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

## SLOAN'S Liniment

GOOD FOR CHEST COLDS JUST PAT IT ON!

### Cold Weather Driving

New Substance To Keep Frost From Windshield

Nesa, a transparent coating for glass windshields which conducts electricity evenly across the surface, is seen as an eliminator of icing and interior fogging in aircraft. William O. Lytle, Pittsburgh Plate Glass research engineer, is credited with developing Nesa. Tests show no distortion of vision, no material reduction in light intensity and an added strength against impact at low atmospheric temperatures. Nesa treatment can be applied to plate glass, laminated safety glass, and multiple-glazed units. Electrical contact is made through metallic bus bars at the glass edge.

### Birds For Canada

Shipment Of Animals Has Arrived From Britain

Nine birds (seven of which were canaries) and eight valuable dogs arrived in Montreal recently from London, England. The dogs, which included one valued at over \$4,000 comprised four champion bulldogs, a cocker spaniel, and three Welsh corgis (squat, short-haired, terrier-like animals). The corgis are valued at over \$1,000. The bulldogs were destined to Duncan, B.C.; the corgis to North Hatley, Que., and the cocker spaniel to Abbotsford, B.C. The seven canaries were destined to Windsor, Ont., and two racing pigeons were bound for Calumet City, Illinois.

### PREFER THE FARM

Girls Helping Out During Summer Want To Remain

CLARKSON, Ont.—The nucleus of a new "back-to-the-land" movement might be found among a group of "big city" girls who have been spending their summer months on farms in this district about 20 miles west of Toronto.

Comprising university and high school students, typists, stenographers and secretaries, the group generally is well disposed to farming as a career. In fact, some of the girls said they would prefer to marry farmers rather than city men.

"I'd love to live on a farm all my life," was the enthusiastic comment made by petite Claire St. Pierre of Quebec City. Claire, just turned 19, could only say "yes" and "no" in English before she came here and now has a large vocabulary at her command.

"But if a farmer boy proposed to me, I'd say 'yes' any time," she added.

Valerie Charlebois of Fort William is seriously considering giving up her chosen profession as a stenographer because "farming is a lot more fun." And 18-year-old Margaret Willis, a student majoring in psychology at the University of Toronto, said she was quite willing to trade her degree "for a few acres of ground any time."

### Housing Drive

Some Details Regarding Construction In Britain During Current Year

The rate of progress of Britain's housing drive is increasing. White Papers published on August 29th show that during July 10,395 houses were completed of which 5,109 were permanent. This is the highest figure since the end of the war, comparing well with June's total of 8,039. The total number of houses completed since April 1st, 1945, is 60,452, 20,027 of which are permanent, and of them 2,578 are blitzed houses, completely rebuilt. Private enterprise has been responsible for the larger part of the permanent houses completed to the end of July, in building 11,917 compared with 8,110 built by local authorities. During July work has begun in England and Wales on 14,292 new permanent houses. Local authorities are responsible for 11,366 while 2,926 are being put up by private builders. Since March accommodation in all categories—permanent and temporary houses repaired or requisitioned houses—has been found for 202,097 homeless families in Britain, an increase of 14,516 in July.

A glance at the figures for dwellings now under construction in Britain shows that preference is being given to permanent homes. Out of 163,232 in preparation 134,600 are permanent and only 28,632 temporary. The increase during July of houses in the course of construction is 19,177.

620,000 houses damaged during the war but still considered habitable have also been repaired by the end of July.

Excluding prisoners of war 521,800 men were employed on housing in England and Wales at the end of July. In June the total was 515,900 while in July, 1945, the total was only 320,400. As repairs to damaged houses decline so men are switched to the building of permanent houses. Scotland's labor force in July totaled 45,550.

### World Brotherhood

Can Never Be Obtained Apart From Christianity

PHILADELPHIA.—World brotherhood and peace will never be attained apart from Christianity, the Archbishop of Canterbury, Most Rev. Geoffrey Francis Fisher, D.D., said at the closing session of the 49th National Convention of the Brotherhood of St. Andrew, Episcopal Lay Organization.

### GEMS OF THOUGHT

#### BUSINESS OF LIFE

To cultivate kindness is a valuable part of the business of life.—Samuel Johnson.

Let us serve instead of rule, knock instead of push at the door of human hearts, and allow to each and every one the same rights and privileges that we claim for ourselves.—Mary Baker Eddy.

We can only have the highest happiness by having wide thoughts and much feeling for the rest of the world.—George Eliot.

Teach us delight in simple things And mirth that has no bitter springs;

Forgiveness free of evil done, And love to all men 'neath the sun. —Rudyard Kipling

Our grand business in life is not to see what lies dimly at a distance, but to do what lies clearly at hand.—Carlyle.

Let us see to it that our lives, like jewels of great price, be noteworthy not because of their wealth, but because of their weight.—Seneca.

In New York the Tailors Guild was told that a man to be well-dressed should have six business suits and 12 pairs of shoes.

### FAMOUS ARCHITECT

Canadian Who Designed Empire State Building, Is Dead

HASTINGS-ON-HUDSON, N.Y.—Richmond Harlowe Shreve, the Nova Scotian who designed modern man's most impressive structure, the Empire State Building in New York City, died here recently. He was 69.

Member of a New York firm which designed the 102-storey Empire State Building, Mr. Shreve also aided in the designing of New York City's second most valuable real estate property, the \$50,000,000 Parkchester housing development in the East Bronx.

Parkchester, 13,000-apartment residential and business project owned and operated by the Metropolitan Life Insurance Company, houses nearly 40,000 residents in 51 buildings covering 129 acres of land. Its taxable valuation is second only to the \$100,000,000 Rockefeller Centre in mid-Manhattan.

The development comprises buildings ranging from six to 13 storeys, each with a dozen or more apartments.

Mr. Shreve was born in Cornwallis, N.S. He was a son of Very Rev. Richmond Shreve, once Dean of the Anglican Cathedral in Quebec City.

### Farm Competition

Two Quebec Farmers Were Awarded Gold Medal

QUEBEC.—J. A. Eccles of Sweetburg and Philbert Audet of Compton have taken first and second place respectively in the 1946 Agricultural Merit competition for farmers of the province, Minister of Agriculture Laurent Barre announced.

The two farmers become Commanders of the Agricultural Order and will be awarded the Gold medal at the Quebec provincial exhibition. Mr. Eccles placed first with 932.5 while Mr. Audet obtained 920 points. In the silver medal section, Raoul Poitras, of Ste. Helene, Bagot County, headed the list with 905 points.

The competition this year attracted 79 candidates in the different classes; professional farmers 11, gentleman farmers 2, silver medal 38, and bronze medal 28.

## When your BACK ACHES...

Backache is often caused by lazy kidney action. When kidneys get out of order excess acids and poisons remain in the system. Then backache, headache, rheumatic pain, disturbed rest or that "tired out" feeling may soon follow. To help keep your kidneys working properly—use Dodd's Kidney Pills. Time-tested, popular, safe, non-habit-forming. Demand Dodd's Kidney Pills, in the box with the red band. Sold everywhere. 135

### Changes Ownership

Film Company's Floating Island At Jasper Given To Canada

Emperor Island, built by a motion picture company in Jasper National Park, Canadian Rockies has been transferred from United States custody to ownership by the Dominion of Canada. The quarter-acre floating island was constructed and launched on Leach Lake in Jasper as a setting for scenes in the film "Emperor Waltz". The presentation was made to Major J. A. Wood, superintendent, Jasper National Park, by Joan Fontaine, motion pictures actress.

### COAST-TO-COAST

KELLOGG'S ARE CANADA'S

# choice for any meal anytime!

Want an idea that will help you save time and work—and at the same time keep meals more interesting for your family? Thousands feature Kellogg's not only for breakfast but for quick snacks anytime of day! Pep, Corn Flakes, All-Bran, Rice Krispies, Bran Flakes, Krumbles and All-Wheat are all made by Kellogg's, the greatest name in cereals!

Pep Bran Flakes with other parts of Canadian whole wheat are delicious, extra crisp, extra thick. Your whole family will enjoy Kellogg's Pep.

SAVE TIME... SAVE FUEL... SAVE FOOD!

### Precious Stones

British-American Agents Recover Hoard In Germany

FRANKFURT.—British and United States agents seized precious stones and metals possibly exceeding \$10,000,000 in value and arrested hundreds of Germans in the largest joint British-American operation in Germany since the dissolution of supreme headquarters, it was announced.

Swooping suddenly on 367 selected places in the two zones, the raiders recovered a vast hoard of diamonds, gold, silver and platinum. A spokesman said it was "conjectural but conceivable" that the hoard may have been designed to finance "a resurgence of German nationalist movements."

Clues to the hiding places came from typically thorough German records of the Reichstelle fuer Edelmetalle (Reich-agency for precious metals) which told how the hoard had been dispersed before the war's end in an attempt to keep it from falling into allied hands.

Tabulation of confiscated materials was not complete, but from 79 places—less than a quarter of the total number of points raided—about \$2,500,000 in precious stones and metals was recovered, the spokesman said. He indicated the total may run above \$10,000,000.

### HEAT FROM THE SUN

BOSTON.—The United States Civilian Production Administration said that it has authorized Massachusetts Institute of Technology to build an experimental solar house for research in heating homes with energy from the sun.

Ice cream was invented in Italy in the 14th century.

### RICHEST GOLD MINE

The richest gold mine in history lies today beneath the village of Odendaals Rust in the Union of South Africa. Its ore contains 26.6 ounces of gold (\$2,200) to the ton, or about 100 times more than that of the average gold mine.

## 92 Years Old—and Fit as a Fiddle

Run Up and Down Stairs

"I feel in duty bound," writes Mrs. A.J.W., "to express my gratitude for the better-than-expected results my father has obtained from Kruschen Salts. He is ninety-two years old, and is as fit as a fiddle. He can nip about, and run up and down stairs. His friends marvel why it is he is always alert and never feels slack. He always tells them, 'I believe it is my regular dose of Kruschen Salts in my first cup of tea every morning.' We always recommend Kruschen Salts to all our friends. To my idea, no family should be without Kruschen."

—(Mrs. A.J.W.)

Most people grow old long before their time, and many of them neglect that vital need of health—the need for internal cleanliness. The majority of these people could feel so much better and brighter... yes, feel more spry, too... if they would follow the Kruschen plan for a while. Simply take a small morning dose of Kruschen Salts in tea, coffee or hot water. That's all there is to it. Lessen the dose or discontinue altogether when you are regular. After that take when you need it. Two sizes: 25c and 75c at all druggists. Ask for Kruschen.

### NEW TYPE GLASS

The physical characteristics of a new silicone glass laminated plastic are improved after a week's baking at 250 degrees Fahrenheit, which would have caused other laminates to deteriorate.

### UNREST AMONG FARMERS

There is considerable unrest among our prairie farmers—and well there might be. Most of them are not satisfied with the present price they are receiving for their wheat. Farmers are beginning to feel they are paying too many subsidies to too many other people. Here are the facts.

Our farmers alone are subsidizing Britain at this moment to the tune of 50 cents a bushel on 160 million bushels a year. Is this fair?

The Canadian Government is with holding between 20 and 30 cents a bushel from our farmers—based on the price the government is actually receiving for the wheat they are selling—and withholding this 20 to 30 cents for five whole years. Is this right?

Our farmers are subsidizing all Canadians on 70 million bushels of wheat, used in Canada as flour and bread, for at least 30 cents a bushel (the difference between \$1.25 and \$1.53). In addition our farmers are

paying their share of the taxes required to allow millers to buy wheat for home consumption as flour and bread at 77.38 cents a bushel. Is this just?

I for one agree with our farmers that these price disparities so discriminating against wheat growers are neither fair, right nor just. They should, therefore, be immediately corrected. The Government can remove these discriminatory overnight. Why don't they?

Mrs. Leona Knight of Lethbridge, has purchased L.L.'s Beauty Shop and will move to Raymond soon. Miss Alice Stevens will continue as beauty operator at the shop.

## Letter Box

Editor, The Recorder:

With the calling of a non delivery strike for midnight, September 6, the Alberta Farmer's Union has set a precedent in the policy of farm organizations the world over.

Since its inception, this very progressive organization has had in mind the possibility of taking strike action should other means fail to gain for the farmers the proper recognition of their requests as presented by annual conventions from time to time.

However, the general trend of Canadian policy has forced the Western farmers to a showdown before we had expected it. It is regrettable that we have been forced to take this action at this time. However when we sent our delegation to Ottawa to present our requests we had hoped to get at least some concessions. This, however, was not the case. Our recommendations were turned down flat. In view of this fact we have no other alternative but to call a Non Delivery Strike and withhold our produce for thirty days or until satisfactory negotiations have been reached. We are asking the farmers whether members or not to give this strike their wholehearted support, as all will share equally in any benefits derived from our actions.

We would ask the consuming public to consider the farmer's position very carefully before directing their criticism against one group or another.

We wish to remind the public that we are not asking for higher prices for our produce, but to maintain the cost of production at a level whereby the farmers can make a decent standard of living after expenses are met.

The workers and business men are asked to consider their position to day if it were not for the small measure of prosperity which the farmers are now enjoying. Remember this—the farmer is prosperous—all are prosperous.

Sincerely yours,  
C.J. Stimpfle,  
President, Alberta  
Farmer's Union.

## Lethbridge Experimental Station

### THE VALUE OF THE SUGAR BEET INDUSTRY TO ALBERTA

In southern Alberta's "sugar bowl" the annual harvest of over 100 million pounds of sugar is just getting underway. The next few weeks will spell a period of anxiety and hard work for the 1400 farmers on whose land this sugar is produced and also for the army of several thousand workers who will be responsible for garnering and processing the sugar beets. However, it may well be asked does this multi-million dollar industry mean anything to the rest of Alberta?

Though sugar is produced in Southern Alberta to supply the requirements of all Alberta, all of Saskatchewan, and most of Manitoba and still have some to spare under present rationing. This means that because of the sugar industry, several million dollars flow into Alberta annually from her sister provinces and this money finds wide distribution through transportation systems, warehousing and distribution centres. There are more carloads of sugar products moved through Lethbridge each year than there are carloads of coal. Incidentally the coal consumption

of two sugar factories contributes considerably to the miner's steady payroll.

To mention only one of the many secondary industries associated with sugar production, a livestock finishing industry built around sugar beet by-products is rapidly expanding thus providing ranchers with a ready market for their feeder stock and subsequently supplying our packing houses with quality stock for processing and distribution. It also requires several million dollars to adequately evaluate this tributary industry.

The General Motors Corporation of America has set aside a considerable sum of money for research in labor saving machinery for sugar beet production. This is because a survey showed that in several sugar beet counties of Colorado there was a higher percentage of automobiles per capita than in any other comparable area in the United States. Similar reasoning would indicate that there are few Albertans who do not reap some benefit from the sugar beet industry in addition to the 70 pounds of sugar per person which they consume annually.

I'm "agin" space travelling. Reason? If one could build a machine fast enough to fly past the moon in 2 1/2 seconds, it would still take another

four and a quarter years to fly to the nearest star.

I just haven't the time to spare.

## CANADA'S No.1 CITIZEN

shapes his future...

these five ways...

Canada's future is in the hands of her people... That future is threatened by the menace of inflation... Canada's bulwark against this menace is the steadfast performance of her No. 1 citizens. Here is the No. 1 citizen's five-point programme of personal finances:

- 1 Hold on to my Victory Bonds and Certificates;
- 2 Buy only those goods which are in fair supply and save my money for the day when goods now in short supply will be readily available.
- 3 Avoid black market purchases.
- 4 Keep up my insurance.
- 5 Build up my savings account.

BANK OF MONTREAL

working with Canadians in every walk of life since 1817

This is why we say:

If You Are  
a No.1 Citizen  
You will look after  
No. 1...

This is not selfishness,  
but the realization that a  
community is no better, no  
sounder than its citizens.

SAVE FOR YOURSELF... AND YOU SAVE FOR CANADA

The Alberta Wheat Pool desires to advise its members that it intends to carry on for the crop year 1946-47 on a co-operative basis paying a patronage dividend in keeping with the principles under which the Pool was formed. The following notice is published to comply with the provisions of the Income War Tax Act which was amended at the last session of the Parliament so as to tax co-operatives.

"As required by the Income War Tax Act, this will advise our members, as referred to in the said Act as amended, that, in accordance with the terms and conditions and within the times and limitations contained in the said Act as amended. It is our intention to pay a dividend in proportion to the 1947 patronage out of the revenues of the 1947 taxation year or out of such other funds as may be permitted by said Act, and we hereby hold out the prospects of the payment of a patronage dividend to you accordingly."

**Lougheed Building, Calgary**

## OF DEADLY FUMES

**Guard against the dangers of deadly carbon monoxide.** That appeal has been made to motorists by the Alberta Motor Association.

'Now that the cold season is approaching, there is real need of taking every care to protect car drivers and occupants against gas fumes, which take such a heavy toll every year.

It is generally recognized that many old cars still are operating on the highways. In these vehicles the hazards of carbon monoxide obviously are greater than with later models.

When running the car engine in a garage on a cold morning to warm it up before starting on a trip, make certain that one or more car windows are open to admit fresh air. See that means have been provided to

counteract poison fumes.

Be on the alert at all times for carbon monoxide the "stealthy killer" If that sound advice is heeded there will be fewer fatalities from that cause this year and many heartaches will be avoided.

The A.M.A. is making an appeal to all motorists and others to observe every precaution against carbon monoxide.

Attending their first annual convention since the war, more than 200 members of the Canadian Weekly Newspaper Association travelled from Montreal to Halifax by special Canadian Pacific Railway train, crossed the Bay of Fundy on the Canadian Pacific's Princess Helene and fulfilled their journey on a special Dominion Atlantic Railway train. Top photo shows a group of British Columbia editors and their wives in a lounge room of the Princess Helene enroute across the Bay of Fundy. They are, left to right S. P. McKinnon, Cloverdale; Irving Wilson, Port Alberni; K.B. Watter, Smithers; William J. Rimes, Vanderhoof; C.F. McKenzie, Rossland. In a dining car aboard the Dominion Atlantic (centre photo) Mrs. Bert McKay, Moosomin; S. Sack, and Mrs. McKay; Mrs. E.F. Stotsbury, Esterhazy, Sask.; and Mr. Stotsbury, get advice on the mid-day meal from steward Bob Hood. Some delegates from Alberta (lower photo) are shown in front of the Grand Pre shrine, one of the points of interest visited. The picture includes A. H. Avery, Taber; Mrs. Avery; Mrs. C.C. Jessup, Nanton; Mr. Jessup; Mrs. Ben A. Mackell, Innisfail; Mr. Huckle, E. P. Galbraith, Red Deer; Mrs. H. G. Thinnel, Vankivi; Mr. Thinnel; Mr. S. S. Macdonald, Fort Macleod and Mr. Hall well.

## CANADA'S HORSES TO HELP REBUILD EUROPE

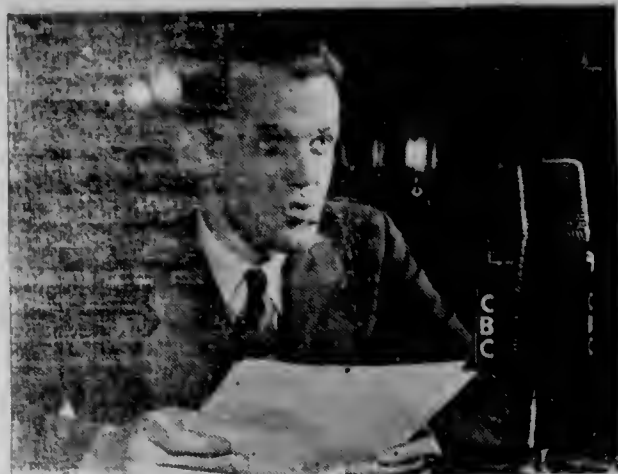

Sturdy Canadian draft horses are being gathered and shipped by thousands by UNITRA for service in war-devastated Europe. The "recruiting centre" is Eastern Pablic Cattle Market at Montreal, where already more than 9,500 have been cared for. Eventually, 18,000 will be shipped to European countries. After their long train trip by Canadian Pacific

Railway from Western Canada, horses are herded into large barns (upper left) where they are fed, watered and groomed. A horse auctioneer (upper right) watches Dr. Charles H. Taylor, Cookshere Co., examine a fine specimen to determine its weight, age and condition. Men at the table register horses if desired for overseas service. Several in-

inoculations for each animal are part of the processing to prevent sickness in transit or in Europe and in lower left Dr. Romeo Raymond, Montreal, inoculating veterinarian, applies the serum. After the inoculation a workman brands the horse's left shoulder with the letters UC, which signifies UHLA-Canada.

Seated before the microphone in CBC's Ottawa studios, BLAIR FRASER, CBC commentator and Ottawa editor of a Toronto magazine, addresses radio listeners as one of the regular speakers on "Capitol Report", a weekly broadcast of news from the

capitals of three nations. The program is broadcast Sundays at 1:30 p.m. over the CBC Trans-Canada network, and includes reports from speakers in Ottawa, Washington and London.

#### HORSES STILL USEFUL

Professor Grant McEwan, well known prairie agricultural authority, says the horse will continue to be useful in Canadian agriculture, and farmers should keep a team or two of good horses to do the work which they can do more cheaply than by tractors. The best mares on the farm should be kept producing as big, quiet young mares will shortly command high prices. Professor McEwan thinks the old time practice of raising horses in large bunches on the open range should not be encouraged. It is the gentle, farm raised colt which is in demand and readily finds a good market.

### Travel Will Be Fun Again via Canadian Pacific

Remember how pleasant it used to be to travel on Canadian Pacific ships! Remember the cuisine, the courteous service, the fun of shipboard life...and the ships themselves!

Just now there's a big job to do repairing the wear and tear of wartime years—replacing lost ships...but, when it's done, travel will be fun again—the Canadian Pacific way! Soon a new, two ocean fleet will plow the sea routes of the world...and once again it will be possible to go from Shanghai to Southampton—Canadian Pacific all the way!

Canadian Pacific

Toronto born Ruth SPRINGFORD began her career as a radio actress in 1942, and in the ensuing 4 years became one of the "reliables", called to play comedy shows and daytime serials, in CBC feature production and the annual "Stage" plays. M.L. Springford is heard frequently in the "Summerfallow" dramas at 11: p.m. over the CBC Trans-Canada network.

Don't fit in—fight on.

When we're willing to crack old moulds we can shape the new world.

This may be the darkest hour of history. Have you any light for it?

It's foolish for short-tempered men to long for peace.

Always wanting to be a big shot makes me just a big noise. Some of us only think of our heart when it comes into our mouth.

MONTY AUTOGRAPHS PRIZED PHOTO

When L.C. Coleman, C.G.M., chairman and president of the Canadian Pacific Railway and Mrs. Coleman met Field Marshal Montgomery at Windsor Station, Montreal, before he boarded the special C.P.R. train for Ottawa. The distinguished soldier autographed one of her most prized possessions. It was a picture of their

son, Lt.-Col. Rowan C. Coleman, D.S.O., M.C., being decorated with the Military Cross by Monty during the Italian campaign. Col. Coleman was second in command of the famous Princess Pats and was wounded shortly after the Italian campaign was launched. Later he was put in command of the Loyal Edmonton Regiment and when transferred to Northwest Europe took over command of the Lincoln and Welland Regiment. Left to right, Mr. and Mrs. Coleman, Brig. W.J. Home, M.C., D.O.C. Military District No. 4, Viscount Montgomery and an R.C.M.P. constable.

## Says United States Will Not Attack Russia

WASHINGTON. — President Truman obtained from Commerce Secretary Wallace a pledge of silence, while keeping him in the cabinet, and promptly rushed out a reassurance that the United States has no idea of attacking Russia.

Mr. Wallace, in a letter made public, said "a school of military thinking" advocated a preventive war on Russia before the Soviets have atom bombs. Mr. Wallace denounced such thinking.

Mr. Truman took two decisive steps in short order:

1. He arranged for a gag on Mr. Wallace for the duration of the Paris peace conference. Coincidentally, it also may last through much of the congressional campaign for the fall elections.

2. He got from War Secretary Patterson and Navy Secretary Forrestal a joint letter completely disavowing any such "thinking" as Mr. Wallace referred to, and had his aides release it to newspapermen immediately without comment.

The text of the letter follows: "In the letter of Secretary Wallace dated July 23, published in the newspapers this morning, the statement is made that 'a school of military thinking' is advocating 'a preventive war, an attack on Russia now before Russia has atom bombs.' There is no basis for this statement. There is no such military thinking in the war and navy departments. We know of no responsible officer in the army or navy who has ever advocated or even suggested a policy or plan of attacking Russia."

Mr. Truman apparently told Mr. Wallace emphatically that he stands four-squares behind State Secretary Byrnes and the methods Mr. Byrnes is pursuing, which Mr. Wallace criticized.

## WESTERN COAL

Predicted Price Increase For Coal Mined In The West

CALGARY.—Sources close to the western Canada coal industry predicted an increase of about 50-cents a ton for domestic coal mined in the west, as the dispute between some 9,000 miner and coal operators appeared near settlement with the miners conceding a \$1.40 per day wage increase.

The increase must now be ratified by the war labor board and the miners' locals. A number of minor points in the dispute still remain to be settled.

Mining authorities said the average man-per-day production in the domestic fields stretching from Estevan, Saskatchewan, to Vancouver Island was about 3.5 tons. The wage increase alone of \$1.40 a day would mean an additional cost of 40-cents a ton, they said. The domestic mines employ about 4,500 men.

Other concessions granted the miners that are expected to increase the price of domestic coal includes the welfare fund royalty of three cents a ton, reduction from a 48-hour to a 40-hour work week, with mine maintenance costs remaining the same and new holiday provisions.

The increase granted the 4,500 bituminous miners are not expected to affect the public so directly. Chief customers of these mines, which are located in Alberta and British Columbia, are the railways, steam industrial plants in the west and the big smelting company plant at Trail, B.C.

The wage increase is expected to put an additional \$3,000,000 in the miners' annual paychecks, boosting individual wages from \$7.55 to \$8.95 per day.

## ENTITLED TO BONUS

Many Alberta Townships Are Declared Crop Failure Areas

EDMONTON.—Application is being made to the federal government to declare 406 Alberta townships as crop failure areas, Affairs Ministers C. E. Gerhart said.

An area is declared to be a crop failure section through having an average wheat yield of less than five bushels per acre. The farmers are entitled to a bonus under the Prairie Farm Rehabilitation act.

The Alberta townships are in the special areas in the eastern part of the province and extend to the southeast corner to the vicinity of the international border.

## LEVEL MAINTAINED

No Change In Sugar Ration Or Price For Canadians

OTTAWA.—The Canadian sugar ration will "definitely" be maintained at its present level despite a sharp drop in sugar stocks and the price of sugar will be maintained despite an increase in sugar prices in the United States, prices board officials said.

The Dominion bureau of statistics, in its latest report on the sugar situation, said stocks on hand last Aug. 10 dropped to 99,844,580 pounds from 106,722,723 the previous week and 165,073,298 the corresponding week last year.

## NEED "WALKING STICK" FOR CANCER RESEARCH

Urgently needed in cancer research are these insects known as "Walking Sticks". June Tait of the Red Cross has a swarm of the insects on her. They are being collected by the Red Cross for use by Dr. W. R. Franks, who is conducting cancer research.

## Atomic Bomb Spreads Havoc At Bikini Island

WASHINGTON.—The underwater atomic explosion at Bikini strengthened the conviction of many persons in and out of the armed forces that the armies and navies of the Second Great War are out of date. That explosion added a new dimension to warfare. Defensive weapons, as now constituted, would be helpless against it.

It was a dimension of invisible and soundless death persisting for months in the form of widely disseminated radioactivity against which no protection now seems feasible.

It was a dimension the nature of which is not yet fully understood and about which the military is reluctant to talk—ostensibly for reasons of national security. But from what is known, it seems reasonable to speculate that the atomic bomb, as a depth charge, could:

1. Knock out a major harbor, like New York's, for months.

2. Spread radioactive poison throughout a waterfront area, in the case of New York knocking out the nation's financial heart and stopping traffic in its most vital port.

3. Clamp an unbreakable blockade on certain strategic straits and perhaps large coastal regions.

The Hiroshima, Nagasaki and Bikini atomic air bursts loosed violence of an order which made obsolete many existing concepts of military defence. But such atomic violence, however complete, is short term. Armies could have marched safely through Hiroshima and Nagasaki the day after their destruction. There was no lingering radio-activity. It was dissipated in high strata of the atmosphere.

But the second Bikini test, in effect a depth charge, added enduring and spreading horror, with overtones of inevitable doom.

## POLICE OPPOSITION

Luxury Squatters In Britain Revolt Against Housing Program

LONDON.—Britain's Communist-led luxury squatters bowed before court and police opposition and began evacuating the plush apartment buildings they commandeered 10 days ago in a revolt against the government's housing program.

Dozens moved out of the Ivanhoe hotel in Bloomsbury, and a spokesman for 300 squatters entrenched in the Duchess of Bedford House in fashionable Kensington said they would "all march out together", hoping for "humane consideration" from public authorities.

The exodus came after the government, despite swelling opposition from Labor union ranks obtained court orders evicting some squatters and announced that anyone who disregarded the court edicts would be prosecuted.

The squatters decided to begin their exodus just as powerful support from organized labor was rallied to their cause.

## NEW CURRENCY

TOKYO.—Military currency in Japan, Korea and the Ryukyus will go on a dollars and cents basis Sept. 30, Allied headquarters announced. Certificates in denominations ranging from five cents to \$10 will replace the "a-yen" occupation currency for Allied troops which is fixed at 15 cents to the dollar.

## GAMBLING SHIP

Is Seized By United States Under Admiralty Laws

LONG BEACH, Calif.—The United States justice department, taking Tony Cornero Stralla's word for it that his gambling ship Bunker Hill is on the high seas, sent some 70 coast guard bluejackets aboard the vessel, and seized it under the admiralty laws.

As the coastguardsmen entered the vessel's luxurious casino, roulette wheels stopped spinning, dancing dominoes came to rest and poker hands were discarded. The party was over for some 500 beguilers of lady luck, many of whom had spent the night aboard.

United States Attorney James M. Carter said condemnation proceedings would be instituted on grounds that the craft is engaged in operations other than that for which it was licensed—coastwise trade.

## PLANNED UPRISING

Three Nationalist Army Generals Were Executed In China

PEIPING.—Three Nationalist army generals were executed in Harbin for attempting to lead a gigantic plot to take control of the city, belated despatches from official Communist headquarters in Harbin said.

They had planned an armed uprising within the city itself, the despatch said.

Communist leaders said the revolt was sponsored by Generalissimo Chiang Kai-Shek and Gen. Tu Li-Ming, commander of the Nationalist forces in Manchuria.

Fragmentary information received here indicated the uprising was scheduled for Aug. 28 but the plot was discovered two days before that. Mass arrests within the 48-hour deadline successfully blocked the plot.

## POLIO RESEARCH

Would Make Use Of Monkeys To Fight Disease

WASHINGTON.—Plans for the large-scale importation of a particular species of monkey—described as "the only research tool which offers a reasonable hope of success" in unravelling the mysteries of poliomyelitis—were announced by the national foundation for infantile paralysis.

Dr. H. M. Weaver, acting research director of the foundation told a press conference that the first step would be a six-month expedition into the jungles of the Netherlands East Indies and the Philippine Islands.

Those places, he said, are the habitat of a monkey known as the "Macacus cynomolgus" which he declared had shown promise of being science's best bet in the study of polio. He said approximately 5,000 a year are needed to spur infantile research.

## A HAPPY PEOPLE

Appeal Is Made To Leave The Eskimos Alone

WINNIPEG.—Bishop Martin, of Saskatchewan, told the Winnipeg Kinsmen club that "the Eskimos are a happy people in their own—in God's name leave them alone."

He appealed to the white man to keep from influencing the northern native Canadians.

The Anglican bishop said the Eskimos were a happy, hard-working race of people, living off the land and completely independent from the outside world.

## ANOTHER EXILE

SOFIA.—Nine-year-old Simeon II, deposed as king of Bulgaria by a plebiscite which turned this country into a republic, left his homeland by train for a life of exile in Egypt.

SETS NEW SPEED RECORD—Record-breaking R.A.F. pilot who hit 616 m.p.h. in twin-jet engined Gloster Meteor, Capt. E. M. Donaldson is shown here with his wife and their 11-months-old son.

BOYCOTTED BY JEWS—Palestine conference in London was boycotted by Jewish representatives and members of the Arab higher committee of Palestine. Prince Amir Faisal of Saudi Arabia, right, shown with son, Prince Mahomed, seven, was a delegate.

## Claims Future Of Agriculture Is At Stake

COPENHAGEN.—James Turner, president of the international federation of agriculture producers and of the national farmers union in England and Wales, says the future of agriculture was "at stake" at the food and agricultural organization conference just concluded here.

Main business of the meeting was discussion of plans for a world food board to stabilize farm prices.

The I.F.A.P., formed in London earlier this year, still has to complete its organization and will not seek to advise F.A.O. as a single organization. But six of its seven executive members were present and available for consultation by members of their countries' delegations.

Herbert Hannam of Ottawa, I.F.A.P. third vice-president and president of the Canadian federation of agriculture, was a member of the Canadian delegation.

Mr. Turner said an executive meeting will be held here to choose I.F.A.P.'s meeting place in 1947.

It is understood Canada is asking for the meeting but has competition from several other countries.

Sir John Boyd Orr, F.A.O. director-general, said in his first annual report that I.F.A.P. had completely "endorsed the objective of F.A.O.—a world program of production and distribution based on human need—and wholeheartedly offered to co-operate in achieving that objective."

I.F.A.P. now operates as a provisional council of 13 countries, including Canada, with an executive. The provisional organization will continue until May, 1947, when the permanent I.F.A.P. will be established, with probably 31 countries as members.

## STUDENT EXCHANGE

Progress Being Made In Plan Between Canada And Holland

EDMONTON.—Existing friendships between the people of Canada and Holland will be strengthened if the exchange of Dutch and Canadian university students can be arranged, Berend D. Bangma, representative of the university and students' organization, Holland, said in an interview.

Mr. Bangma is one of two medical students from the University of Amsterdam who are touring Canada and the United States in an effort to work out the student exchange plan. Under the plan the visiting students will be guests in each other's homes. The only expense to be borne by the student will be the fare to and from Holland to Canada.

Mr. Bangma said that good progress in laying the groundwork for the plan has been made. Upon his return to Holland next month, the University of Toronto will be used as a Canadian headquarters.

Student difficulties in Holland, he said, was the scarcity of all text books. He stressed that second-hand and discarded Canadian books, if collected would alleviate the problem in Holland.

## EXTENSIVE DAMAGE

Forest Fires In Far North Have Covered Wide Area

EDMONTON.—Forest fires have caused extensive damage in the far north, due in large part to an extremely dry season, MacKay Melkie, Ottawa, chief inspector for the Northwest Territories and Yukon affairs branch, department of mines and resources, said.

Mr. Melkie has completed an inspection trip which took him as far north as Aklavik and said the forest fires extend over much of the country between Fort Smith and Aklavik. Carelessness of prospectors and Indians was believed to be responsible for fires in many cases.

Mr. Melkie said an important development in northern transportation was the opening of an air strip at the Eldorado mine, property at Great Bear Lake. Large planes now were able to land on wheels, which meant that the volume of tonnage could be increased.

## WHEAT PRICES

The Highest Export Prices Offered For Many Years

WINNIPEG.—The highest export price for Canadian wheat in 26 years was announced by the Canadian wheat board when it increased durum wheat from 15 to 19 cents over export prices of straight grades.

The board's price list showed No. 1 C.W. amber durum at \$2.20, No. 2 C.W., \$2.20, and No. 3 C.W., \$2.19, all prices basis in store Fort William, Port Arthur and Vancouver.

Export prices of the corresponding straight grades to countries other than the United Kingdom, which is covered by the wheat agreement, are as follows: One Northern, \$2.05; two Northern, \$2.02; three Northern, \$2.00.

Increases announced in the durum grades were believed to be a reflection of the high premiums asked for American durum wheat on the open markets in the United States.

## DEMAND MOTOR FUNDS FOR HIGHWAY NEEDS

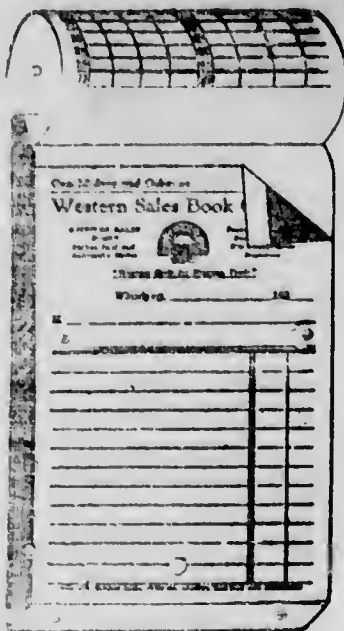

Renewal of demands that all motor revenues should be earmarked for highway construction and maintenance in this province is planned by the Alberta Motor Association.

A provincial director who returned recently from a visit to Montana reported that the state has 3,000 miles of hard surfaced roads. Of particular interest to Alberta car drivers is the fact that in Montana it is necessary to spend all motor revenues on highway improvements and maintenance. The state has to do that in order to qualify for U.S. federal road appropriations.

Officials of the A.M.A. point out that this province with 200,000 more people than Montana undoubtedly could have had several thousand miles of hard surfaced roads now if millions of dollars in motor revenues had been used entirely for highway purposes instead of being taken in to the general fund of the province.

These improvements could have been applied to the entire highway system of the province, giving Alberta better secondary and market roads as well as main highways.

Before the provincial government considers its highway estimates for 1947, the A.M.A. will make vigorous representations to have all motor revenues be applied exclusively for the purpose of building better roads. The association has a large number of Alberta citizens and vehicle owners as its members.

TREASURY BRANCH

JOHN SCOTT, Manager

An unusual feature of the new bond is the privilege of turning them into cash at any time for full face value, plus interest, at any bank. While the interest rate is expected to be considerably better than is available for other forms of saving and more favorable than that of comparable investments at the time of issue, the exact terms of the Canada Savings Bond will not be announced by the Minister of Finance until September 30th. Denominations of the new bonds will be \$50., \$100., \$500., and \$1000.

## FARMERS

A Meeting Will Be Held

Monday September 30 in the Town Hall at 8 o'clock

The business of the meeting will be Voting as to whether to continue the Strike or not ALL FARMERS PLEASE ATTEND!

### PLAN NOW FOR 1947

The end of harvest is a profitable time to consider the past year's operations, and prepare a tentative plan for the year to come. Why was the clover thicker, the oats plumper, or the cows more contented in some fields than in others? Was it just an accident, the result of weather conditions or was the soil of some fields more abundantly supplied with organic matter, lime and mineral plant foods? These questions can best be answered by having the soil tested. This is generally done free of charge by agricultural colleges or some fertilizer companies. However, care must be exercised to make sure that the samples are truly representative of the areas. In order that the job be done accurately, it is wise to first write to the soil testing laboratory for sampling instructions. Early fall, or a few weeks after the crop has been harvested, is the best time to sample fields, according to G.E. Snyder of C-I-L Chemical

and biological activities are still taking place at very nearly the same rate as when the crop was growing. The soil is neither too wet nor too dry for accurate mixing. This need for early action is especially necessary when one is considering the application of lime or the full fertilizing of pasture fields. Lime can be applied more conveniently in September and early October, when the weather is dry and the ground firm enough to permit trucking the lime direct to the field.

While pastures can be fertilized in the spring, most experts now favor the fall treatment. Between September and mid October is the period most favored in Eastern Canada. Extra benefits are less winter killing and earlier, stronger spring growth. Since cows require quality as well as quantity for highest production, the treatment should be at a rate heavy enough to furnish ample minerals for both increased yield and a higher mineral content of the herbage.

## Sugar Factory Campaign Starts

The 1946-47 Campaign of Canadian Sugar Factories Ltd., started Friday morning, the first shift going on at 8 a.m. Beet digging started the first of the week, with Steve Horvath delivering the first load to the Raymond factory. A good rain fell Thursday evening, which will aid greatly in beet digging, as some difficulty has been encountered on account of the ground being so very dry.

By Dr. F. J. GREANEY Director, Line Elevators Farm Service, WINNIPEG, Manitoba

### Chemical Weed Control

Within the last few years important progress has been made in chemical weed control. Not only have several new chemicals been added to the list of effective herbicides, but remarkable advances have been made in the development of methods for their application.

Herbicides for the control of weeds may be grouped into three classes as follows:

**Contact Herbicides.** These chemicals kill all vegetation and sterilize the soil for at least two years. Sodium chlorate, which is commonly applied in the form of "Atlaide", is the best known example. This type of herbicide is invaluable for use on roadsides, railway rights-of-way, along fence lines and ditches, and for relatively small patches of perennial weeds. It is, however, too expensive for use in controlling weeds over large areas.

**Selective Chemicals.** If properly applied these chemicals will destroy certain broad-leaved annual weeds without harming the crop plants. Dinitro sulphuric acid has been used for this purpose for many years; but it is now superseded by a preparation of sodium dinitroresol, which is effective in controlling wild mustard, stinkweed, and certain other annuals.

**Translocated Herbicides.** These are "growth promoting substances" such as 2,4-D. They not only affect the tissues to which they are applied, but are taken into the leaf and then translocated to the roots and other parts of the plant. They are effective against many different kinds of annual and perennial weeds. It is claimed that ordinary applications do not seriously affect cereals and grasses.

Farmers, grain buyers, and others interested in the use of chemicals for controlling weeds should seek advice through provincial Departments of Agriculture and Dominion Experimental Stations, or from Line Elevators Farm Service. Through "Seedtime and Harvest" we shall attempt to provide our readers with up-to-date information on chemical weed control.

### Proposed Tunnel

May Be Built Across The Clyde In Scotland

GLASGOW.—The Glasgow project of building a bridge across the Clyde at Finlinton, debated for 40 years, will probably be abandoned in favor of a cross-river tunnel costing more than \$12,000,000.

This is the recommendation of the city's highway and planning committee and the whole council will discuss the matter soon.

In 1937 a formal decision was made to build a high-level bridge costing £1,250,000 but the war caused postponement of construction. Some land was acquired, however. The suggestion is that it be used to build new factories.

### HOW TO RELIEVE PILE TORTURE QUICKLY AND EASILY

If you are troubled with itching piles or rectal soreness, do not delay treatment and run the risk of letting this condition become chronic. Any itching or soreness or painful passage of stool is nature's warning and proper treatment should be secured at once.

For this purpose get a package of Hem-Roid from any drugist and use as directed. This formula which is used internally is a small, easy to take tablet, will quickly relieve the itching and soreness and aid in healing the sore tender spots. Hem-Roid is pleasant to use, is highly recommended and it seems the height of folly for anyone to risk a painful and chronic pile condition when such a fine remedy may be had at such a small cost.

If you try Hem-Roid and are not entirely pleased with the results, your drugist will gladly return your money.

### Rain And Earthquakes

Under Certain Conditions Water Hastens Or Hinders Occurrence

Rain can help set off earthquakes, according to Prof. V. Conrad of Harvard University's Blue Hill Observatory. It does not hasten the occurrence of all earthquakes, but only those resulting from the down-bending of rock strata by the slow loading of erosional debris on top of them. The thousands of tons of water that filter down into the ground after heavy rains may prove the last straw in such a loading increasing the strain in the supporting rocks to the breaking point.

Contrariwise, where an earthquake is in the making as the result of forces from beneath pushing up on the rock layers, the added burden of accumulated rain water will push in the opposite direction, perhaps delaying the occurrence of the earthquake.—Science Service.

### OUR COMPLETE SHORT STORY—

## The Wrong Scent

By GEORGE N. JAMES

Copyright  
Wheeler Newspaper Syndicate

FOR the past few days Mr. Ebenezer Twigg has been going about with nose bandaged up. Jest who is responsible for this condition no one seems to know unless it be young Stan Brown, old S. H. Kent, or the Rev. Miles. Anyhow most folks here in Clarksville is purty pleased to see Mr. Twigg sufferin' that way. They allows it serves him right.

For plain downright trouble makin', Ebenezer Twigg is way ahead of anyone else in Clarksville. Folks blame it on that nose of his. Long and shiny it is, seemin' to fair twitche at the end. On account of this here nasal organ Mr. Twigg kin smell out scandal or any other kind of Ruckus when it's miles away. In fact, this same nose has more than once smelled trouble when no trouble existed.

Jest to give you an idea of the kind of person this here Twigg is, there ain't nothin' that is ever perfect in his eyes. He's always writin' letters to the paper, complainin' about one thing and another. One day it's about the disgraceful condition of the long grass in his neighbor's front yard and the next it's about the infernal noise his neighbor's lawnmower is makin'. The long beak of his is forever pokin' into other folks' affairs.

It was a hot day fer young Mr. and Mrs. Stan Brown when they comes back from their honeymoon to occupy the apartment right next to Mr. Twigg's. The long nose of his fair quivers with joy, like an old war horse that smells the smoke of battle. Newly married bliss is somethin' that Mr. Twigg can't abide no how. Bickerin' and quarrelin' he kin appreciate but these here honeyed words of young married folks is way beyond his ken.

Mr. Twigg figgers that if he waits long enough he'll hear them quarrelin', so night after night he spends with his ear pressed to the wall that separates him from the young couple. He kin hear them talkin' all right, ken hear that sweet liltin' voice of Mrs. Stan and the jolly rumblin' tones of her big young hubby. However, to Mr. Twigg's disgust, not one cross word does he hear. This constant listenin' does one thing fer Mr. Twigg. He becomes so familiar with the sound of them two pieces that he'd swear he could pick them out of a million.

Well, sir, it's maybe two weeks since the young Browns moved in. Mr. Twigg, early one evenin', is passin' by their door on the way to his own rooms. He hears voices and jest from force of habit steps to listen. The man is speakin'.

"Darlin'," he says, mushy-like, "I love you. Every day you grow more beautiful than ever."

Mr. Twigg's nose twitched with delight. That voice don't belong to Stan Brown. To make sure, Mr. Twigg claps his eye to the keyhole but the folks in the room ain't within his line of vision. All aquiver, this here Twigg person stocks around and listens. By and by he hears Mrs. Brown's voice.

"You know I love you, too, John," she says, "more than you understand—but what kin I do?"

Mr. Twigg is sure joyful when he hears this. She said "John" and her husband's name is Stan. He must act purty quick. Ah! He would find Stan Brown and tell him to git home as quick as possible. No, thet wouldn't do. Husbands were sometimes a mite too cantankerous. By golly, Witnesses! Yes, sir, he'd bring witnesses up and surprise the hussy. Flout a love affair under Mr. Twigg's very nose, would she? He'd show her. The trollop!

Mr. Twigg no sooner reaches the sidewalk than he spies old S. H. Kent. Here's a bit of luck because S. H. happens to be young Brown's boss.

"Mr. Kent!" calls out Twigg. Then he tells him the whole story. Old S. H. fumes up and says Lord help Twigg if he ain't tellin' the truth. Just at that moment who should come by but the Rev. Miles. On hearin' the deplorable state of affairs, he consents to be witness No. 3.

With Mr. Twigg leadin' the way, the procession climbs to the Brown's apartment. Outside the door, Mr. Twigg holds up his hand for silence.

"Then you will fly with me tonight, my beloved one," the ller is sayin'." "To the ends of the world," answers the girl.

Mr. Twigg glances significant like, throws open the door and the three of them bursts into the room. "A purty occurrence," sneers Mr. Twigg.

Then his mouth falls open and he stands there gapin', his face the color of a ripe tomato. There they are, Mrs. Stan Brown and her husband. Young Stan Brown glares. "What the devil," he asks, "is the meanin' of this intrusion?"

Old S. H. Kent looks as though he's goin' to hev a stroke at any moment. "The fact is Brown," he says, "we expected-er, that is-er, ah, hum—" Then he turns on Mr.

## ASPIRIN EASES PAIN

GENUINE ASPIRIN IS MARKED THIS WAY

Twigg. "You sir," he bellers, "are responsible. Tellin' us another man was mokin' love to Mrs. Brown!" "Did he say that?" barks Stan Brown. "He did," replies S. H. "Furthermore he brought us up here to testify to her guilt, the snivellin' busybody! Told us a cock and bull yarn about yer wife and some other feller puttin' on a love scene, the rat!"

"I am deeply obliged, gentlemen, fer yer interest," speaks up young Brown. "The fact is my wife and I hev been rehearsin' a radio play I wrote. Possibly because I hev to raise my voice to record properly, the righteous Mr. Twigg did not recognize it."

As stated afore, Mr. Twigg is goin' about now with his nose in a bandage. Consequently he can't smell so much trouble of late.

"LADY OF ROSES" CHOSEN BEAUTY QUEEN

Prettiest Indian maiden at the Walpole Island, Ont., annual fair was Aleta Altman, 15, who was chosen Miss Walpole Island. Aleta's Indian name is "Lady of Rosca".

### SELECTED RECIPES

#### SAUERKRAUT WITH BEEF

Home-made kraut from the crock with hamburger and tomatoes makes this satisfying dish.

4 tablespoons chopped salt pork  
2 pounds ground beef  
1 teaspoon salt  
2 cups boiling water  
2 pounds sauerkraut  
2 cups cooked or canned tomatoes  
3 onions, cut in halves

Cook salt pork until crisp. Add meat with salt and cook until browned, stirring occasionally. Add remaining ingredients and simmer one hour, or until sauerkraut is done. Makes eight servings.

Note: Meat may be shaped into patties or balls, if desired. Whole or sliced frankfurters may be used instead of beef; add during last 15 minutes of cooking.

#### DEVILS FOOD PUDDING

¾ cup sugar  
¾ cup milk  
2 squares unsweetened chocolate  
¼ cup shortening  
1 egg  
1 cup sifted flour  
½ teaspoon soda  
½ teaspoon salt  
½ teaspoon vanilla  
½ cup bran

Combine ¾ cup sugar, ¾ cup milk and chocolate and cook, stirring occasionally until thick. Cool. Blend shortening and remaining sugar; add egg and beat until light and fluffy. Add chocolate mixture. Add sifted dry ingredients alternately with remaining milk and flour; mix well. Stir in bran. Pour into greased shallow baking pan. Bake in a slow oven (300 deg. F.) about 40 minutes. Cut into squares and serve warm with whipped cream or ice cream.

Yield: Nine servings (8x9-inch pan).

Buenos Aires is the largest city below the equator.

### MAY BE LAST

Rationing Expected To End When New Book Runs Out

The new ration book No. 6 is expected to be the last ration book to be issued, Prices Board officials said. They confirmed that the absence of the usual application blank in the new books means that it is expected to see the consumer through to the time when rationing will be discontinued. "The No. 5 book lasted approximately two years," a spokesman said. "It is thought the book now being issued will end rationing. That is as far as we can go at the moment."

### SMILE AWHILE

Hoping to get a rise out of the farmer working in a field by the road, a fellow called:

"Hey, did you see a wagonload of monkeys go by here?"

"No," replied the farmer, "did you fall off?"

Mr. Smith: "I understand your wife is a finished soprano."

Mr. Jones: "No, not yet, but the neighbors almost got her last night."

Squire Perkins: "Well, after I die I wish you would marry Deacon Brown."

Nell: "Why so, Hiram?"

Squire: "Well the Deacon trimmed me on a horse trade once."

Small girl (to seven-year-old friend): "Oh, I think you're lots better looking than your daddy."

Boy (true child of the motor era): "Well, I oughta be—I'm a later model."

A doctor's little daughter, deeply interested in radio, glanced one morning into the office where her father was testing the heart and lungs of a patient.

"Gettin' any new stations, Daddy?" she inquired.

Magistrate: "You cannot drive now for two years, for you're a danger to pedestrians."

Defendant: "But, your honor, my living depends on it."

Magistrate: "So does theirs."

Bride: "My husband admires my taste in hats so much he never likes to have me discard one."

Mrs. Longwood: "My husband also wants me to keep on wearing my old hats, but he isn't clever enough to think up as nice an excuse as that."

Newspaper Contributor (in letter): "I am a speedy worker. I finished the enclosed article in an hour and thought nothing of it."

Editor (replying): "I got through your article in a fraction of that time and thought just the same."

"You can get anything of a mail order house," remarked the lady next door.

"Everything, alas, but a male," sighed the spinster.

Radium's radio activity lasts for centuries, and is only about half dissipated after 2,000 years.

### Outstandingly Good

### Cosmic Rays

Thinks Scientists Could Be More Usefully Employed

The scientists are monkeying with the buzz-saw again. Some of the best of them at MIT are going up 40,000 feet in a B-29 gunning for cosmic rays, which, if a layman understands the subject at all, come in from Lord knows where and explode into particles, called mesons, that are millions of times more muscular than anything released by an atom bomb.

We wish the professors wouldn't do these things. If they should get in the way of a meson they would be greatly missed; moreover, they have already given the world more knowledge than it can ever comprehend, let alone use, and, furthermore, there are so many needed things they might be doing right here on the ground.

Let them invent, for instance the vest-pocket radar the Chattanooga Times is agitating for a device that will tell a shopper at a glance whether a watermelon is ripe. The deuce with cosmic rays!—New York Times Magazine.

### MONEY FOR DEFENCE

It is a startling and a melancholy commentary on the state of the world that over one quarter of the United States' new budget will be devoted to defence. Of \$41 billions voted by Congress for the year which began July 1 last the War and Navy Departments get \$11 billions.

### Wasted Time

Claim That Young People Of Canada Do A Lot Of Loafing

CALGARY.—Canadian youth spends its time talking, listening to the radio, reading, dating and dancing, going to movies and loafing, according to a survey of problems confronting the young people of the Dominion, made recently by the Canadian youth commission.

Ernest McEwen of Ottawa, secretary of the recreation and leisure time division of the Canadian welfare council, discussed the findings and recommendations of the report at a meeting sponsored by the council of social agencies.

"It is an alarming fact that 16 per cent. of our boys and girls, 15 to 24 years of age, have no creative activities and have found nothing more profitable to do but waste their spare time," he said.

### BID WAS HIGHER

The minister's son was in the habit of going to church every Sunday with his grandad.

"Billy," said the minister one Sunday, "I've been giving you a dime every Sunday to keep your grandpa from sleeping, yet he sleeps."

"I know," said Billy, "but Grandpa is giving me a quarter to let him sleep."

Banknotes are said to be made from old shirts. We always wondered what happened to those we lost at the races.

stage with extra grates.  
See S.M. Sanford

### Our Apologies

Due to circumstances beyond our  
control, we were unable to complete  
printing of the inside sheets. We  
hope to be able to overcome this  
difficulty in the near future.

Bud Sanford says he would a lot  
rather nose over in one of those lit-  
tle planes than have to ride again  
with Marshal Milner and a load of  
outsiders from Cecil Elgaard's place  
on the ridge.

A new insecticide, "Gammexane,"  
was recently instrumental in halting  
the worst locust attack ever recorded  
in Europe.

Striking at Sardinia, in the Med-  
iterranean, the insects, related to  
the Canadian grasshopper, caused  
amazing havoc. Then UNRRA sent  
an urgent request to Britain for 24  
tons of the wonder insecticide. It  
was flown immediately by transport  
plane. The material was sprayed  
from railway trains and aircraft.  
Soon the locusts were swarming to  
the bait and dying by millions. So  
great were the piles of dead insects  
that roads and railways were block-  
ed. "Gammexane" is a British war  
time discovery, known technically as  
hexachlorocyclohexane, reports the  
C-I-L Farm News Letter. It is more  
than 100 times more toxic than sod-  
ium arsenate, and several times as  
effective as DDT in locust control.  
The new insecticide, in several for-  
mulations, is presently being tested a-  
gainst various kinds of insects in  
Canada.

French justices will help to set the  
verdict, the methods and system of  
carrying on have been British. This  
has meant a longer trial, but even  
the Germans admit that they have  
had a fair and full hearing. One  
dares think, that had they been tried  
in France or Russia the trials would  
have lasted a very short time. It  
would not have taken weeks or mon-  
ths to announce the verdict.

As one French Judge said "the  
whole trial is a farce. It should have  
ended six months ago. You must  
have an element of vengeance in  
Justice and to get that you have to  
strike quickly. Those swine should  
have been dead last year."

The Russians are saying "That  
the defeated must die"

The Germans have never for a  
moment admitted their guilt. If they  
are guilty it is only of failure. Did  
they do all this for their beloved  
Fuhrer.

Through all the maze of evidence  
and documents the court has aimed  
to establish the fact that there is a  
law, there is a point at which a man  
must take responsibility for what he  
does.
